## Boating Speed Regulations

The area between the hydroelectric dam in Taylors Falls/St. Croix Falls, and south to the Arcola Sandbar at the mouth of the Apple River, is designated a slow speed zone. Motorboats may only create a minimal wake.

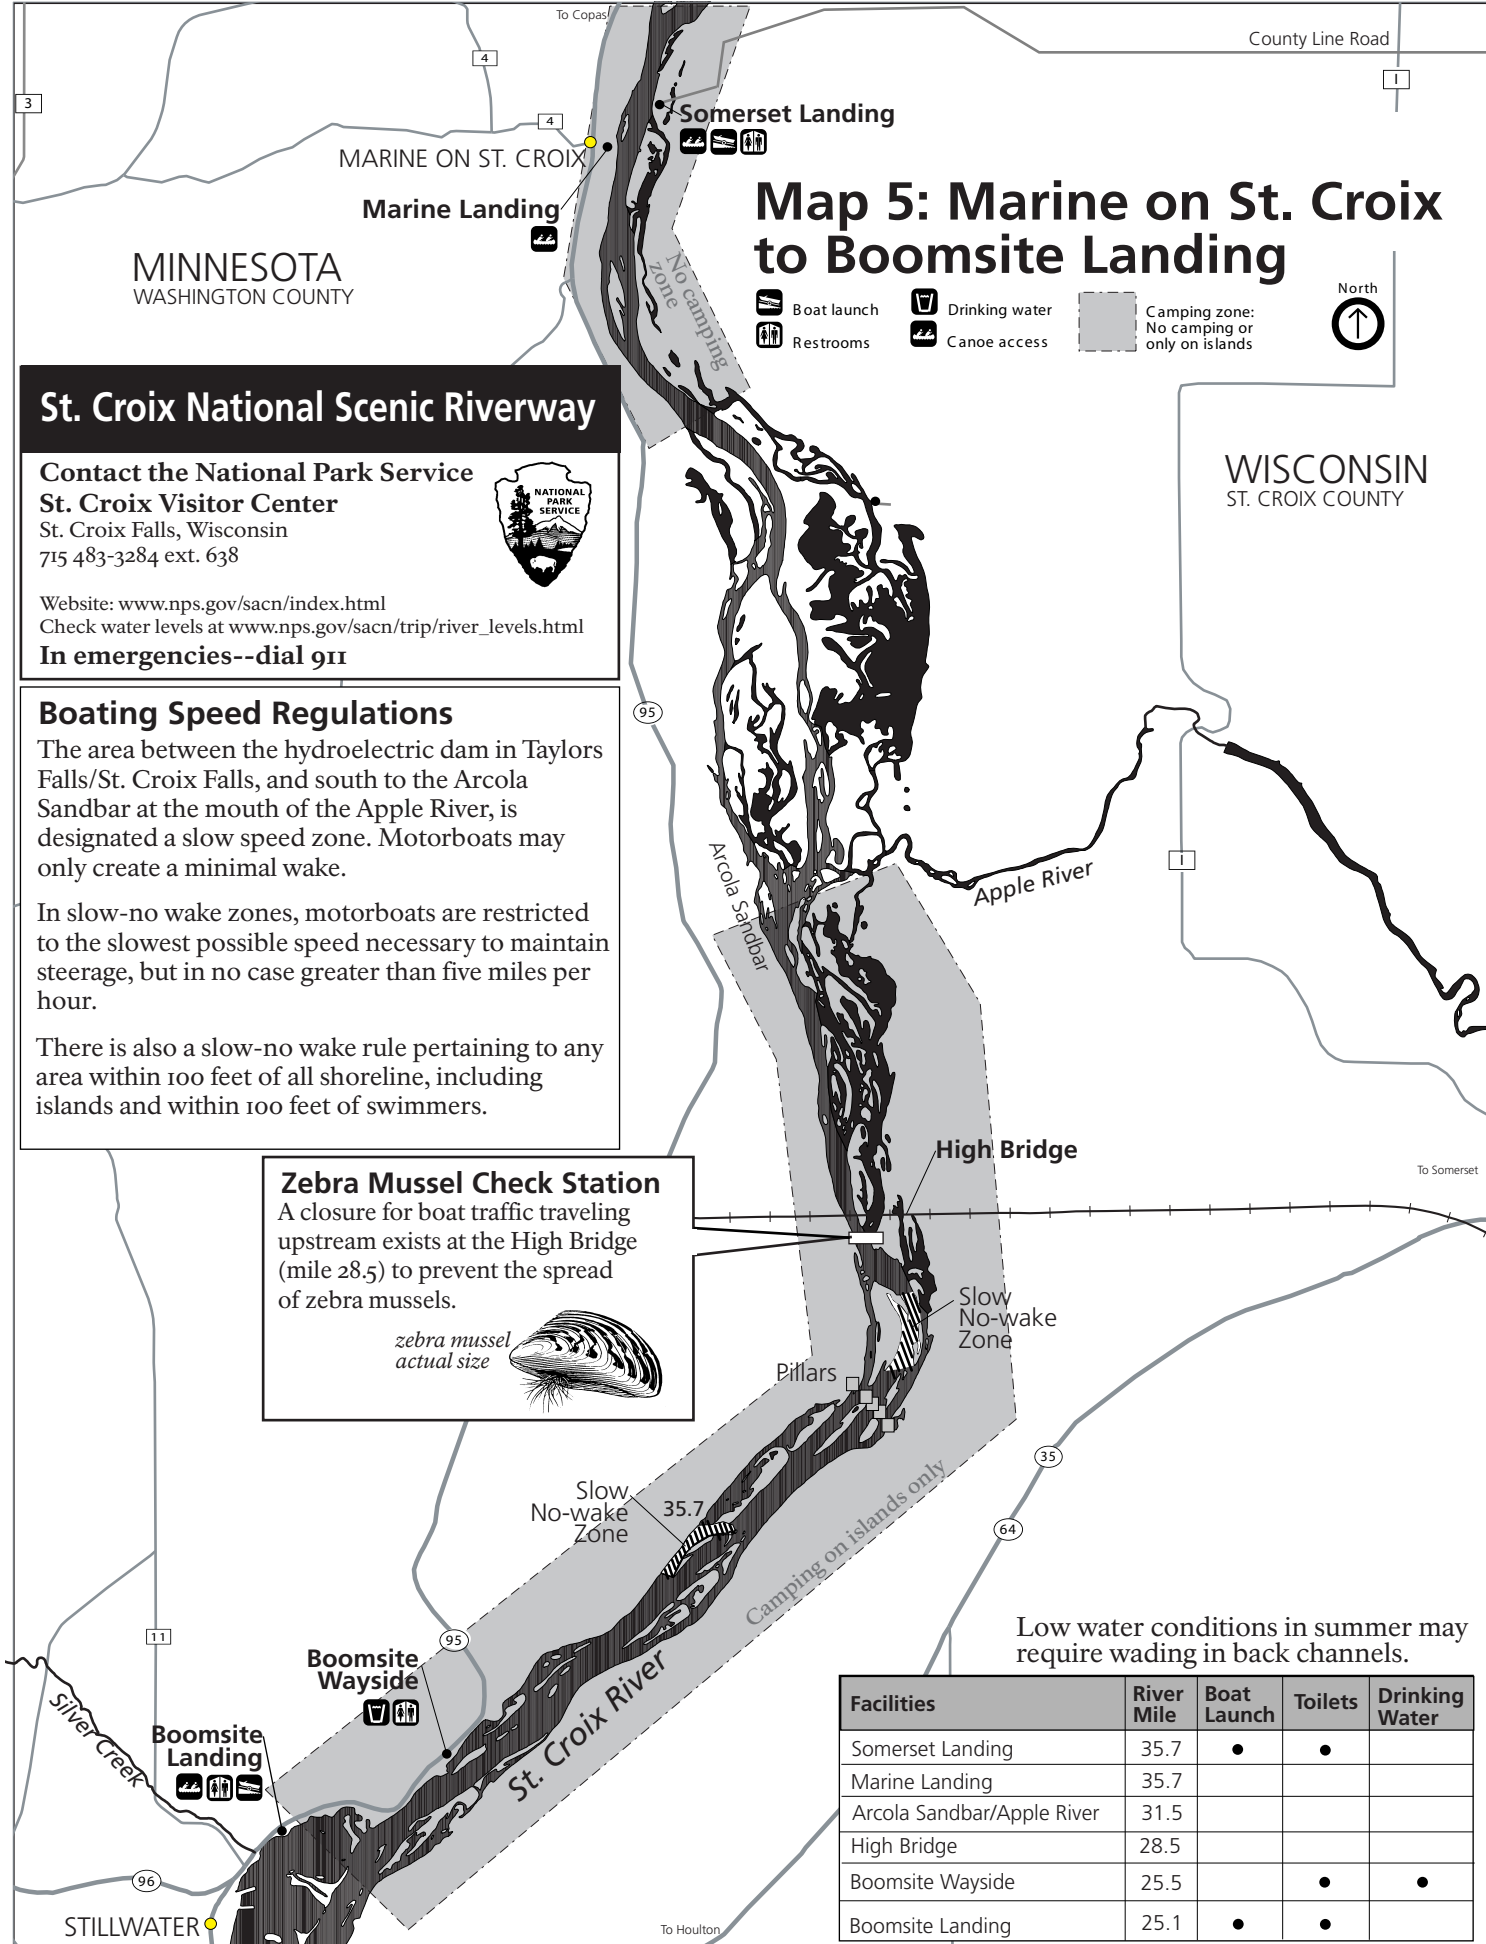

In slow-no wake zones, motorboats are restricted to the slowest possible speed necessary to maintain steerage, but in no case greater than five miles per hour.

There is also a slow-no wake rule pertaining to any area within 100 feet of all shoreline, including islands and within 100 feet of swimmers.

## Zebra Mussel Check Station

A closure for boat traffic traveling upstream exists at the High Bridge (mile 28.5) to prevent the spread of zebra mussels.
